Scaled Agility. Enterprise Control.

Kiplot. The Strategic Portfolio Management Platform

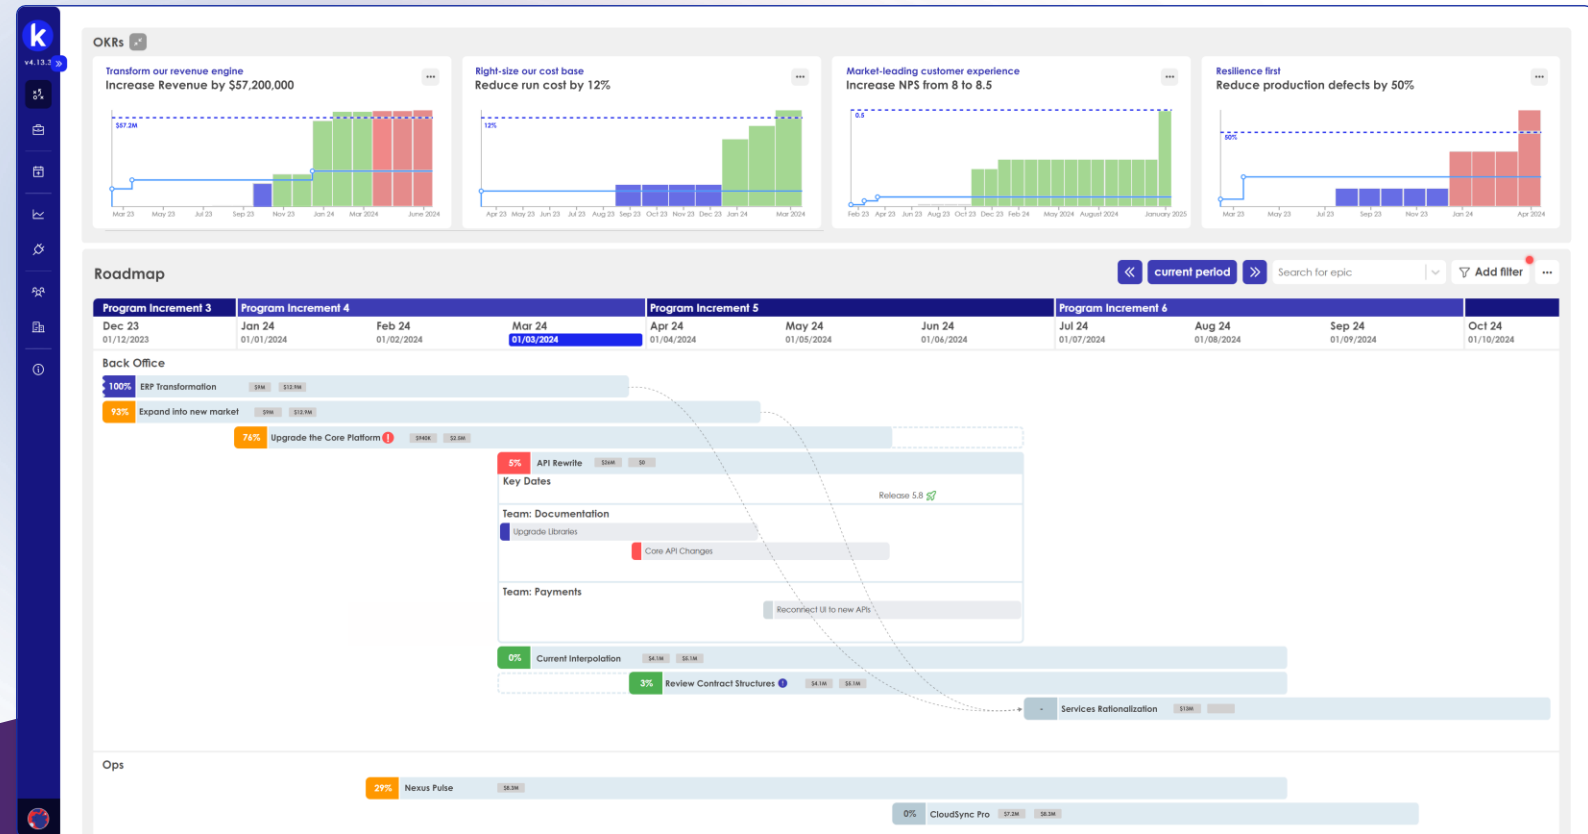

Kiplot powers faster, smarter, more connected delivery.

Kiplot connects your strategy, delivery, and financials - across agile and mixed portfolios.

By integrating tools like Jira and SAP, it gives you real-time oversight, precise control, and the clarity to steer with confidence.

Empower teams, align priorities, and unlock value - without unnecessary complexity.

The Operating System for Modern Portfolio Management

Grow with Kiplot

Start small or rollout the full enterprise solution.

Seamless Integrations

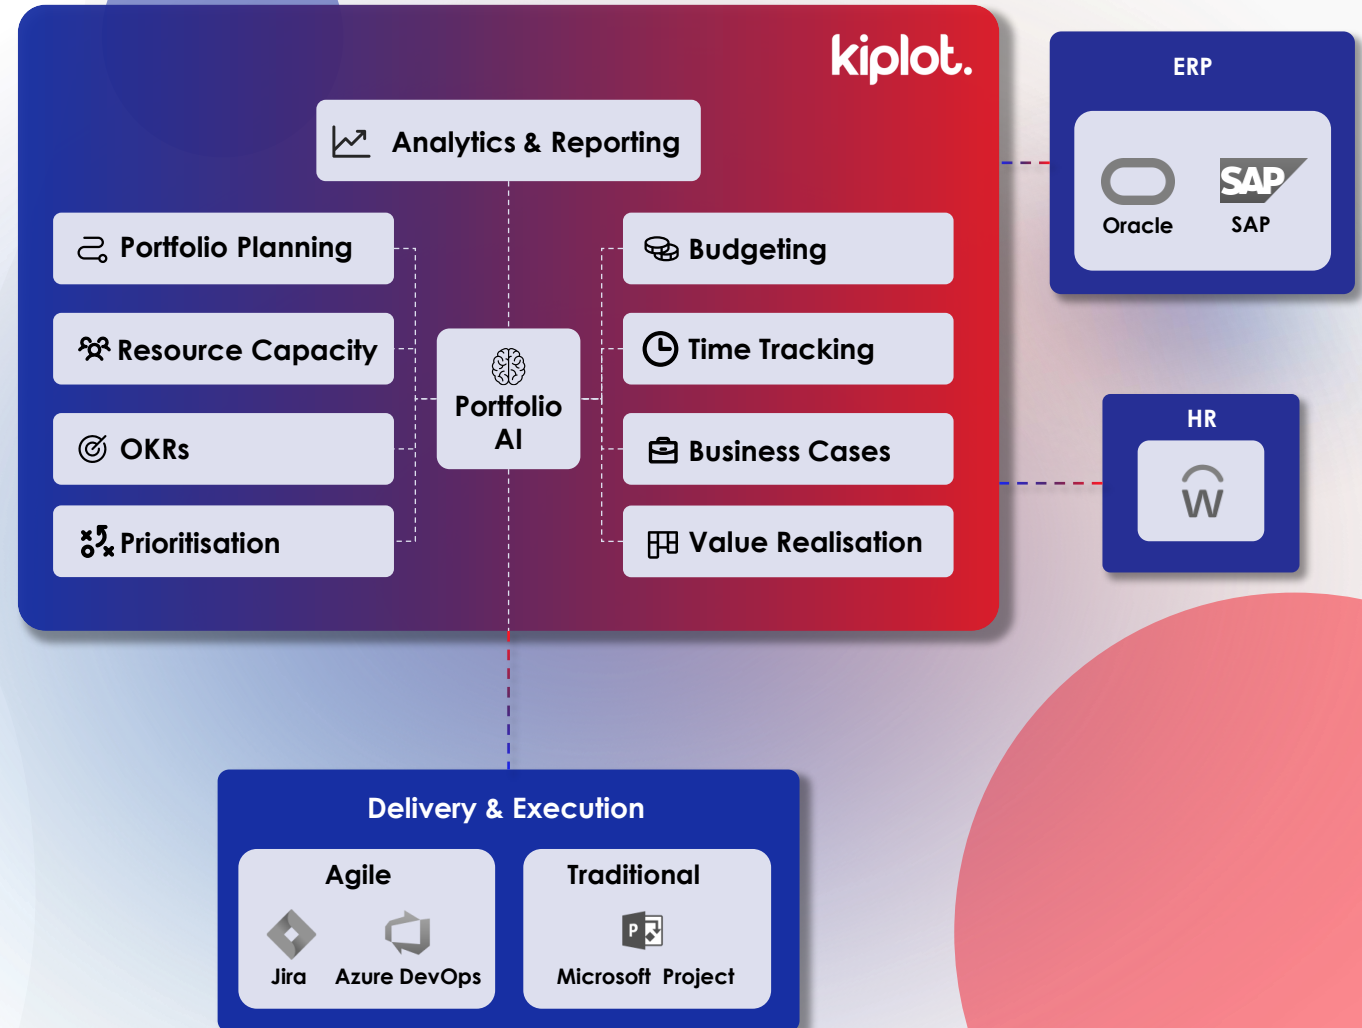

Unify your existing ecosystem effortlessly.

Flexible & Scalable

Customize Kiplot to meet your organization's unique needs.

Comprehensive Platform

Enterprise-ready portfolio management capability.

TSB Bank powers agile transformation with Kiplot

Before Kiplot

A fragmented portfolio with inconsistent resource capacity planning, annual investment prioritization and a lack of strategic working, leading to unpredictable and inefficient delivery.

Kiplot implemented

Mixed Portfolio

Single mixed portfolio (waterfall + agile) directly linked to strategic goals and underpinned by proactive capacity management as well as standardized investment prioritization.

Journey so far Agile Portfolio

A value stream-centric portfolio with real-time progress tracking of strategic objectives and key results. Capacity management is interwoven with investment and ongoing iterative prioritization.

Kiplot has been transformational in enabling our agile transformation across TSB. The platform has helped us to drive delivery efficiency, transparency and empowerment. Kiplot continues to act as our long term strategic partner as we evolve ways of working across TSB.

Andrew Boon TSB Bank
Director of Change, Payments & Procurement

24%

increase in return on investment across all delivery (£24million on a £100m spend!)

7%

Faster digital delivery

daily active users collaborating over a single source of truth

RAKBANK's SPM capability, powered by Kiplot

Undertook comprehensive RFP: selected Kiplot to power their Strategic Portfolio Management capability, replacing legacy system (Planview)

Unified portfolio oversight: Agile value streams, squads, and waterfall projects tracked in one place.

End-to-end financial control: Automated actuals, forecasts, accruals, CapEx/OpEx, straight from SAP.

Azure DevOps integration: No dual keying, no rework.

Streamlined governance: Single framework for all initiatives, no dual processes.

Real-time resource capacity planning: Live views for early bottleneck resolution.

CEO-ready reporting: Live dashboards, no prep needed.

Low-overhead time tracking for all staff and vendors. Minimal overhead, full financial traceability

An aerial photograph of a dense green forest. A large, irregular red shape, representing a Kiplot, is overlaid on the forest. A winding asphalt road with white lane markings curves through the forest, passing through the red Kiplot area. Two small white cars are visible on the road. The text "How can Kiplot help you?" is written in white, bold, sans-serif font across the red Kiplot area.

**How can
Kiplot
help you?**

Empower teams and drive accountability with clear goals

Goal setting

Empower teams and align them with strategy by setting and tracking OKRs

Strategic roadmaps

Track real-time strategic progress by connecting live roadmaps to underlying work

Investment governance

Ensure you're working on the right things using prioritization connected to investment governance

Scenario analysis

Determine the best route forward by comparing what-if scenarios

Connect strategy to execution and prioritize the fastest route to value

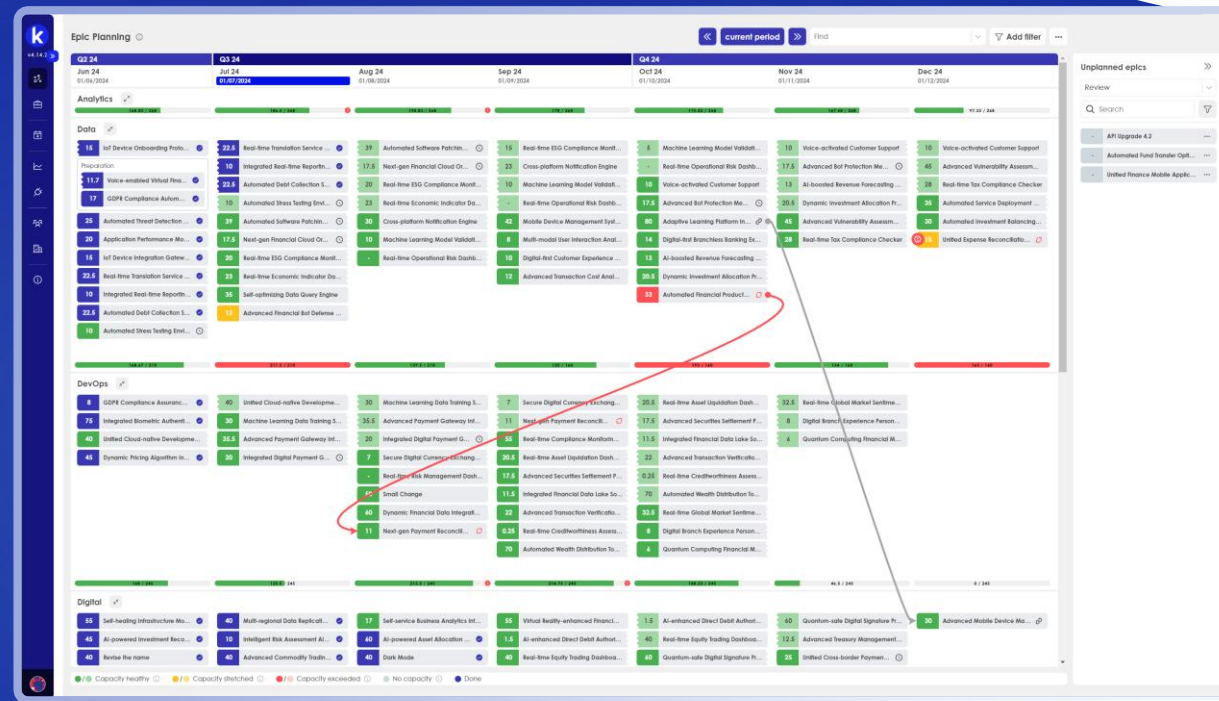

Epic planning

Coordinate teams and prioritize work to deliver the highest value outcomes as quickly as possible

Capacity management

Maximize resource utilization across teams using capacity management

Team empowerment

Drive accountability by giving teams ownership of outcomes

Prioritization

Respond easily to changing market conditions by swiftly reprioritizing

Deliver value by turning the strategic “what” into the execution “how”

Collaboration

Promote collaboration by linking internal tools to keep everything in one place

Dependency management

Ensure smooth delivery by unravelling dependencies

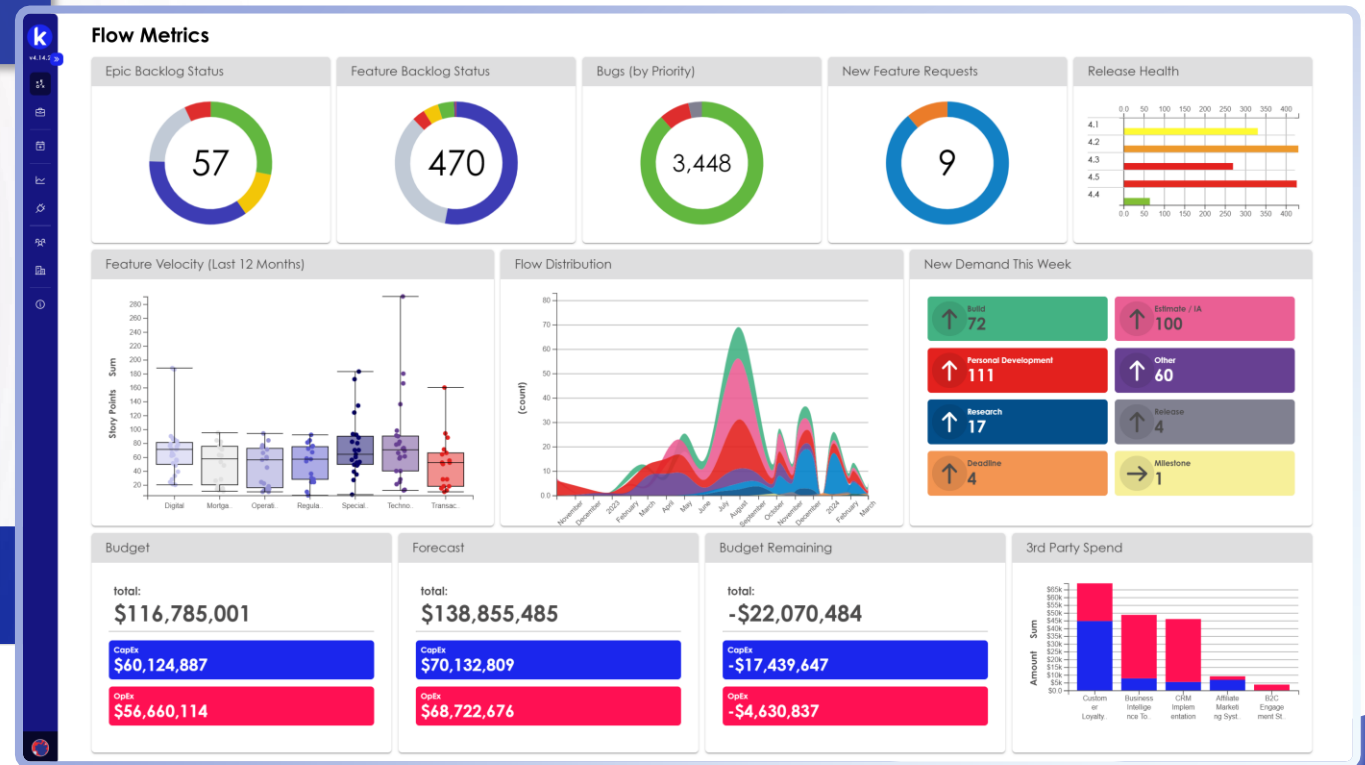

Integration

Eliminate dual keying and ensure everyone is on the same page, through two-way integration with tools like Jira

Delivery health

Stay on target through real-time progress tracking

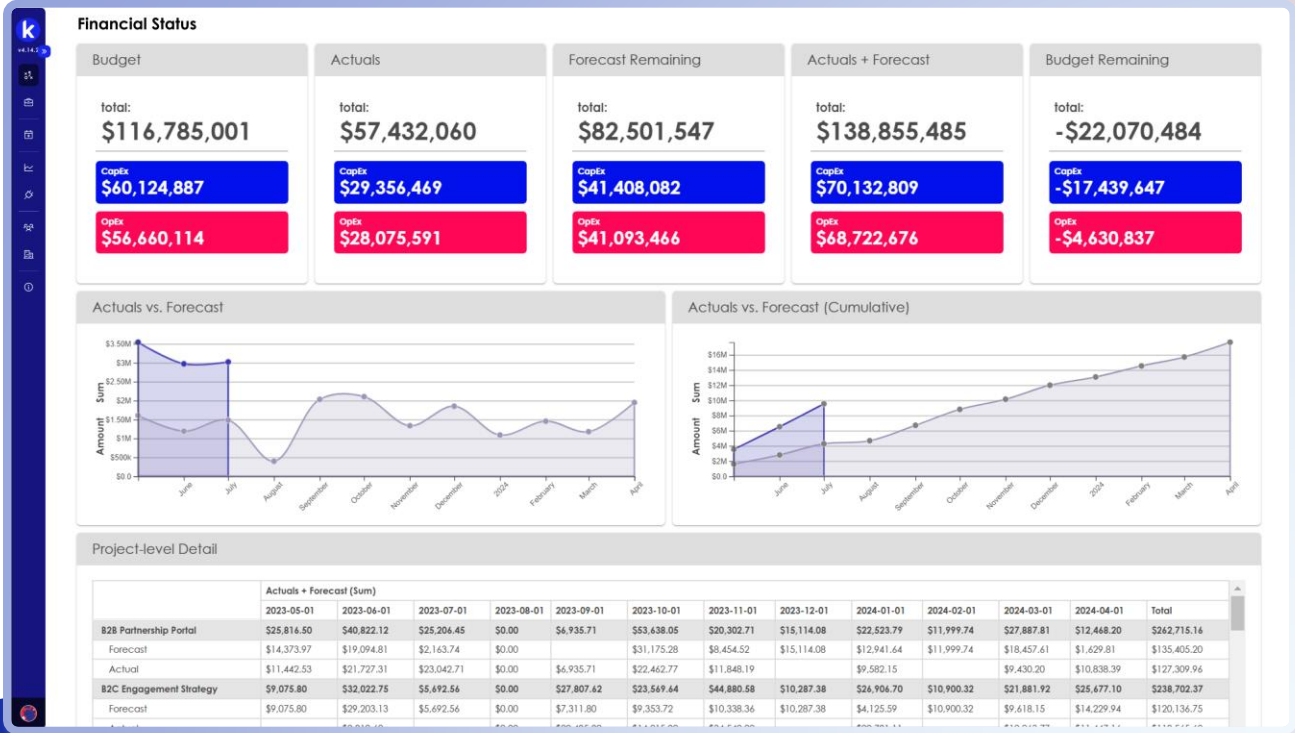

Ensure value for money and increase delivery efficiency

Value realization
Ensure ROI by tracking value realization and portfolio costs in real time

Business cases
Drive accountability by building, governing, and measuring business cases

Forecasting
Improve time estimation by automatically comparing actual time with forecast time

Cost control
Keep track of costs in real-time through integrations with finance systems like SAP and Oracle

Instantly simplify complex portfolios to drive focus

kiplot.

Instant automated reports

Instant reporting so your teams can focus on delivery, not PowerPoint

Dependencies unravelled

Unravel your portfolio dependencies to reduce complexity

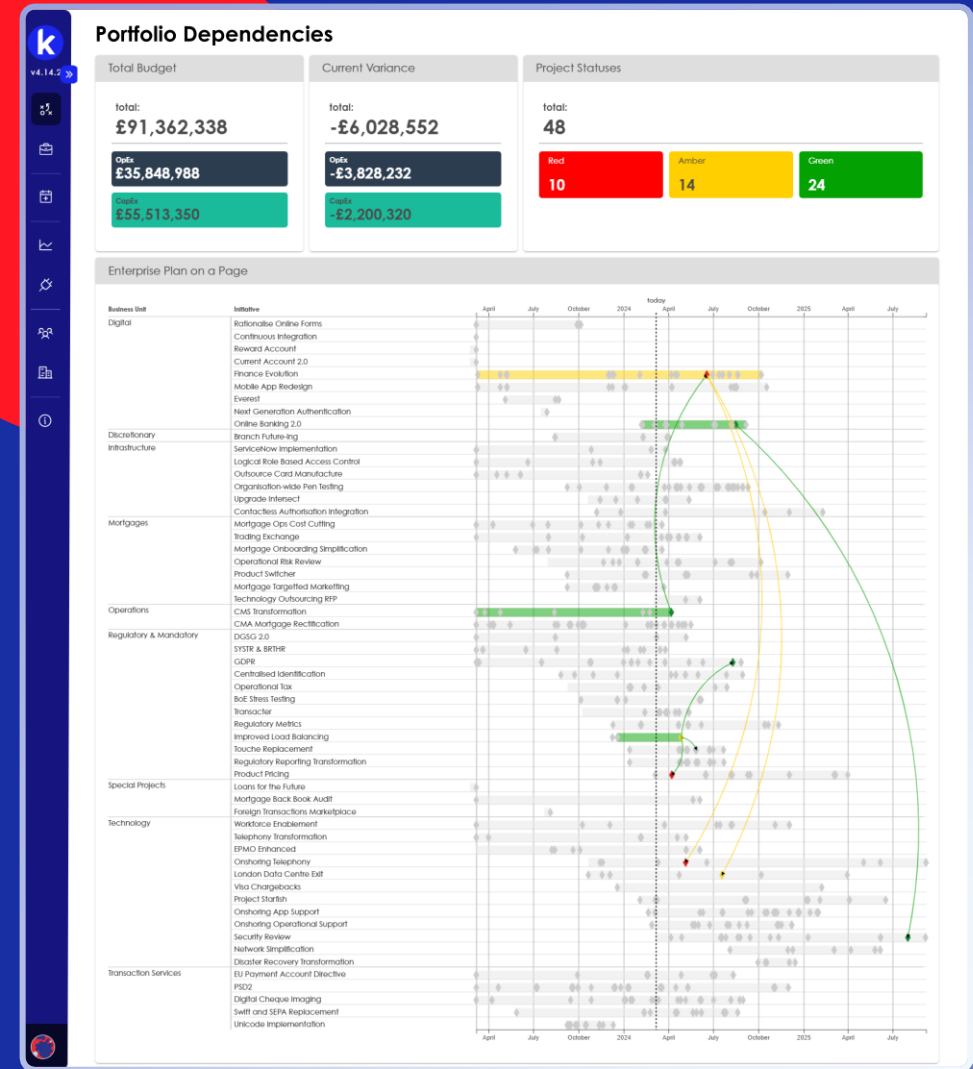

Stop the cottage industry

Stop the PowerPoint and Excel cottage industry and ensure your teams are focused on creating value

Drive decision making

Use data at your fingertips to drill into issues and unlock rapid decision making

Unite your enterprise ecosystem

Kiplot works out of the box with your existing systems to enable complete transparency and control across the organisation.

Kiplot's two-way integrations push-and-pull data to create a single source of truth that flows throughout your entire ecosystem.

- No more dual keying.**
- No more reconciliation.**
- No more manual reporting.**

The Kiplot logo is positioned at the top center of the image. It features the word "kiplot." in a white, lowercase, sans-serif font. A small blue dot is placed above the letter 'i', and a small red dot is placed at the end of the period.

kiplot.

The main headline "Ready to go?" is centered in the image. "Ready" is written in a very large, bold, white sans-serif font, while "to go?" is in a slightly smaller, regular weight of the same font. The background is a gradient from dark blue on the left to bright red on the right, with a layer of white, fluffy clouds at the bottom and scattered white specks representing stars.A red rectangular button with rounded corners is located at the bottom center. It contains the text "Book Demo" in a white, sans-serif font, which is underlined.
